Welcome Erica Mailler, MD, Mohs Surgeon

Dr. Erica Mailler is a board-certified Dermatologist and fellowship-trained Mohs micrographic surgeon.

Dr. Mailler's undergraduate degree in Bioethics is from the University of Virginia. She earned her medical degree at Wright State University School of Medicine in Dayton, where she graduated Alpha Omega Alpha (national medical honor society). Dr. Mailler then completed a dermatology residency and a prestigious Mohs fellowship at the University of Cincinnati.

Dr. Mailler has been published in many peer-reviewed journals and is a fellow of the American Academy of Dermatology and American College of Mohs Micrographic Surgery. She is a diplomate of the American Board of Dermatology and a member of the Women's Dermatologic Society and the American Society for Dermatologic Surgery.

Cosmetic Dermatology Services

Dermatology Associates provides aesthetic nonsurgical procedures for those patients interested in facial enhancement through the use of Botox, fillers, chemical peels, and laser treatments.

We are happy to announce the return of laser treatments, performed by Megan Armstrong, our cosmetic nurse, in addition to Botox, the Juvederm Collection of fillers, facial rejuvenation treatment, and aesthetic consultations.

Welcome Lauren Shanholtz, NP

Lauren Shanholtz is a dedicated Advanced Practice Registered Nurse with a strong background in maternal and newborn care. She graduated with honors from Potomac State College of WVU in 2021 with a Bachelor of Science in Nursing. Her commitment to excellence and patient care led her to further her education, pursuing a Master of Science in Nursing at Frontier Nursing University. During her nurse practitioner training, Lauren completed a 135 hour internship with Dermatology Associates.

Psoriasis and Atopic Dermatitis (Eczema) Centers of Excellence

Providing the latest cutting-edge biologic treatments for Psoriasis and Eczema, as well as other immune system disorders, we are a study site for the CorEvitas Registry Study evaluating the safety and efficacy of these ground-breaking therapies. Services include a full-time biologic coordinators who interface with insurance companies, pharmacies, and manufacturers to facilitate prior authorization and approval, as well as finding the best assistance programs to make these medications as affordable as possible.

GentleCure Non-Surgical Skin Cancer Treatment

Also known as image-guided superficial radiation therapy (IG-SRT), [GentleCure](#) is a non-invasive, effective alternative to Mohs surgery for basal cell and squamous cell carcinomas. Administered over several weeks in our office by a radiation therapist, it is the first and only treatment to use low-energy radiation therapy (skin-deep only) guided by high-resolution ultrasound images to direct and assess response. With cure rates similar to Mohs surgery, there is no cutting, bleeding, pain, surgical scarring, or reconstructive surgery.

No Pain or Discomfort*No Down-time*99%+ Satisfaction*99%+ Cure Rate
